

# Looking after your new Lash Extensions

So now you've got beautiful new lashes it's very important that you look after them...

- Brush them daily, morning and night.
- Keep them clean! This is one of the most important bit of aftercare I can give you , dirty lashes means poor retention and risk of infection.
- Aftercare kits are available to purchase from me.
- Attend regular lash top ups every 2-3 weeks, anything longer and you'll be charged for a new set.
- Do not pick or rub your eyes, remove make up with an oil free make up remover or your lash cleanser.
- Do not wear mascara over them.

Please remember your lash extensions will follow your own lash cycle , eyelashes will shed as normal with your lash extension attached. This is why infills are needed . Please be aware that lifestyle, seasons of the year will contribute to premature shedding, please book appointments for top ups in advance.
